POWER TRANSMISSION (NINGBO) LIMITED

QUALITY POLICY

Challenge Power Transmission (Ningbo) Limited is a part of Challenge Group which is a leading manufacturer and distributor of power transmission components and the complete range of Challenge branded products are sold through its global distribution network.

Our product range includes:

- Industrial Chains and Sprockets
- Industrial Belts and Pulleys
- Shaft fixings and Bushes
- Couplings
- Gearboxes
- Bearings
- Electric Motors

Challenge Power Transmission (Ningbo) Limited has developed and implemented a Quality Management System in order to document the company's best business practices, better satisfy the requirements and expectations of its customers and to improve the overall management of the company.

We shall strive to adhere and maintain Quality Management System in line with ISO 9001:2015 in all aspects and stages of our business operations.

The company Quality policy calls for continuous improvement in its Quality management activities and business will be conducted according to the following principals:

- Compliance with requirements of ISO 9001:2015 and all applicable laws and regulations,
- Provide our customers with products and services that meet or exceed their quality requirements,
- Adopt Total Quality Management principles and continuously improve our processes, products and services,
- Work closely with our customers to gain complete satisfaction,
- Communicate our Quality Management System Policy to all employees and interested parties.

We shall continually improve our products development, designs, products attributes and business performance in cooperation with our highly dedicated professionals and well experienced team.

The management team will periodically review the performance of the Quality Management system and our quality objectives.

This policy is announced to all employees and regularly reviewed during management review
